

Document Title	New Packaged FTC4 Cylinder
Reference Number	EB015-2013
Date of issue	10.05.2013
Originator	Emma Gold
Replaces	

New Mitsubishi Electric Packaged FTC4 Cylinder – EHPT20X VM2HB

The following cylinder products will be replaced:

1. EHPT20X VM2HA

These products will be replaced by the:

1. EHPT20X VM2HB

The reason for this change is because extra functionality is now available with the introduction of FTC4 including:

- 2-Zone Control
- Hybrid System Operation
- Cascade/Multiple Unit Functionality
- SD Card Commissioning and Maintenance

There will be no old FTC3 kit available and all remaining orders will move to FTC4.
